

American Heritage Horse Association

Membership Application

The American Heritage Horse Association is a part of the Windcross Conservancy Inc.'s goal for the preservation of Foundation Spanish Mustang/Colonial Spanish Horses. It is within this area that the Association came into being after five years of organization. We feel that these horses are truly America's Heritage and should be preserved as such. The foundation horses of this association are the remains of the historical Spanish horses that helped build this nation. They are of the purest strain available today.

Come join us in this effort to insure that these foundation bred horses are with us, for generations to come.
